

Dear Prime Minister Trudeau:

I am one of the people who believes you will lead in the change that Canada needs for recovering its space as a country where all rights are respected. Among those expected changes are those in favour of Temporary Farm Workers that have been working to put food on our tables. For this reason I propose that the following improvements be made a priority:

- To create a watchdog civil commission with a legal mandate to randomly inspect workplaces and workers' residences, in order to assure compliance.
- To reform Canada's immigration policy so that it ensures family reunification and permanent status for those migrant workers who want to apply for it.
- To fund TFWs advocate community groups who work according to the time, conditions and needs of TFWs.

We are certain that you share our hope for a more just treatment of those who contribute so much to our society, and look forward to working together in making this a reality.

Sincerely,

Name:
